Joseph Welch, PA-C
Physician Assistant

Results

Patient Name: _____

Date of birth: _____

All results will be sent electronically via the portal. If your result is abnormal, requires further treatment or changes to your treatment regimen we will call you to discuss over the phone.

- What phone number would you like us to call with results?: _____
- May we leave a detailed voicemail (labs/pathology) at this number*? **Yes/No**
- Is there anyone we are authorized to give your results to? Name: _____

We will attempt to contact all patients with any results that need further discussion or treatment within 2 weeks. There are occasions where results may be delayed. *Please contact our office if you have any questions regarding the results you receive or you are not able to access your results via the portal.*

Please note that all cultures done in our office are processed by Quest. If you are given a lab order for blood work, while we recommend you go to a Quest lab, you should choose a lab that is in-network with your insurance plan.

All pathology (biopsies) will be processed by and read by Dermatopathologists at DermPath Diagnostics in Tucson, AZ. Our providers have chosen these doctors to read your biopsy as they specialize in reading skin specimens. Fortunately, they are contracted with the majority of the insurance companies we are. For those that aren't, they provide a very cost-effective program to make the charge the patient receives similar to an in-network charge.

You will be billed separately for any lab fees from the lab directly. For any questions on a bill you receive please contact them directly.

I have read and understand the above information and have had any questions answered to my satisfaction. I will contact the office if I have not received my results within 2 weeks.

Modernizing Medicine Portal Instructions

Through the portal, *you can view your chart notes, receive results, update your medical history, medications and allergies, as well as send and receive messages with our office.*

Please use the following instructions to access your Portal:

- You will receive an e-mail with a link to set up your portal for the first time. *You must do this within 24 hours* otherwise it will expire. Please check your junk/spam folder as it sometimes ends up there.
- After initial set up, you can use *Google Chrome* or *Mozilla Firefox* to log on to: <https://centerdermlaser.ema.md>

From the “Patient Info” tab at the top left of your screen you may review your demographic information and update your medical history.

From the “Visit Info” tab at the top left of your screen, you may view your finalized chart notes, as well as any pathology results that you have requested we send to you.

From the “Contact Us” tab at the top left of your screen, you may send and receive messages with our office.

- For questions regarding your visit, prescriptions, blood work, or other questions, please message [Medical Questions](#)
- For questions regarding your pathology (biopsy) results, please message [Biopsy Results](#)
- This is where you would also receive messages explaining your test results and any related pertinent information.
